

Junior Java Web Developer – New Jersey Based

Overview

Optessa Inc. is looking for a Junior Java Web Developer with 1-3 years of experience to be based in the Hazlet, New Jersey office.

The Junior Java Web Developer will serve as a key member of the customer implementation team. Responsibilities will focus on the development, testing and documentation of Optessa software products. The scope of work will include all aspects of application development including user interface, server-side business logic, data access/persistence and underlying architecture. The development environment is product-centric and cross-platform.

About Us

Optessa is a leader in intelligent planning, sequencing, and scheduling optimization software with many successful implementations among top tier global manufacturers. Optessa products have wide applicability in industries as diverse as auto OEMs, suppliers, power equipment, electronics, semiconductor, mills, batch process industries such as food and beverage and paints and in the shipping and logistics area. Optessa has been on a strong growth trajectory for the last 5 years and has strong partnerships with major global consulting partners.

The company has offices in Edmonton, Alberta, Canada, Hazlet, New Jersey, USA and Goa, India. Optessa's leadership team combines deep expertise in software, mathematics, manufacturing, and optimization technologies with unmatched customer commitment. Optessa's team supports global deployment at more than 100 distinct manufacturing facilities and production areas.

Optessa offers competitive compensation packages along with a culture that values growth and retention of our employees while maintaining a good work and life balance.
